

base_local_planner
::MapGrid::resetPathDist

```
graph LR; A["base_local_planner  
::MapGrid::resetPathDist"] --> B["base_local_planner  
::MapGrid::unreachableCell  
Costs"]
```

A diagram showing a call from the `resetPathDist` method of the `base_local_planner::MapGrid` class to the `unreachableCell Costs` method of the same class. The call is represented by a blue arrow pointing from the left box to the right box.
