

E:/github/navigation
/costmap_2d/src/array
_parser.cpp

```
graph TD; A["E:/github/navigation  
/costmap_2d/src/array  
_parser.cpp"] --> B[cstdio]; A --> C[string]; A --> D[sstream]; A --> E[vector];
```

The diagram illustrates the dependencies of the file `E:/github/navigation/costmap_2d/src/array_parser.cpp` on standard C++ library headers. The main file is represented by a grey box at the top, and four arrows point from it to four white boxes below, each representing a header: `cstdio`, `string`, `sstream`, and `vector`.

cstdio

string

sstream

vector
